

## **Program Director for Diabetes Epidemiology Position Available at NIDDK**

The **National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK)** is seeking an **Epidemiologist** to lead a program of epidemiologic research on diabetes within the **Division of Diabetes, Endocrinology and Metabolic Diseases (DDEM)**. The DDEM supports and provides leadership for research on the causes, prevention and treatment of diabetes and its complications, as well as other endocrine and metabolic diseases.

### **Current Opening**

**We are looking for applicants with significant research experience, who have a commitment to excellence, and the energy, enthusiasm, and innovative thinking necessary to lead dynamic and diverse programs.**

We are seeking an epidemiologist to serve as **Program Director for Diabetes Epidemiology**. The Program Director will play an active role in stimulating new research and managing ongoing grant portfolios focused on understanding the epidemiology of diabetes to understand the burden of diabetes in the U.S. and inform development of more effective and targeted/personalized interventions to prevent and treat diabetes. The applicant should have a grounding in biologic science and epidemiologic methodology including the understanding of study design, sampling strategies, and statistical approaches for data analysis. Experience with large data sets or data from electronic health records is highly desirable.

In addition to the scientific and administrative oversight of grants funded by DDEM, the Program Director will be responsible for developing joint research activities and partnerships with other NIH Institutes and other government agencies, including the development and analysis of national surveys used to collect data about diabetes in the U.S.

The applicant should have a Ph.D. or equivalent in Epidemiology and should have diabetes or diabetes relevant research experience.

**Applicants must be U.S. Citizens.**
