

to set priorities in your new position, discerning when to say "no", and how to manage your research and professional funds. Participants are encouraged to bring their questions!

Table 3 - Beyond NIH Funding Sources

Dr. Heather Tarleton, Assistant Professor, Loyola Marymount University

Dr. Jose Romero, Associate Physiologist, Brigham and Womens Hospital/Harvard Medical School

It is important for researchers at all levels to understand how to pursue and secure funding from non-federal sources. This discussion will focus on identifying potential funding mechanisms at foundations and in the private and non-profit sectors. We will also discuss how to work with your institution and how to create a presentation portfolio in order to garner support.

Table 4 - R01/R21/R03/R15 (R mechanisms)

Dr. Carlos Isales, Professor, Augusta University

Dr. Ann Jerkins, Scientific Review Officer, NIDDK

A brief overview of the R mechanisms followed by a discussion of which mechanisms might be a "best fit" according to project stage and strategies for planning for a submission.

Table 5 - K Awards

*Dr. Bridgett Rahim-Williams, Professor and Associate Dean,
Bethune-Cookman University*

Dr. Robert Wellner, Scientific Review Officers, NIDDK

Dr. James Hyde, Program Director, NIDDK

A brief overview of the various K mechanisms followed by a discussion of which mechanisms might be a "best fit" according to the applicant's career development trajectory. Emphasis will also be placed on creating a K-award mentorship team and career development plan to ensure that your proposal is viewed as complete.

Table 6 - Research Supplements to Promote Diversity

Location: Insight Room

*Dr. Robert Rivers, Program Director, Office of Minority
