# TABLE OF CONTENTS

**EXECUTIVE SUMMARY**

**INTRODUCTION**

**TOPIC-SPECIFIC CHAPTERS**

- Research on the Basic Biology of the Digestive System 25
- Functional Gastrointestinal Disorders and Motility Disorders 51
- Infections of the Gastrointestinal Tract 69
- Cancers of the Digestive System 81
- Inflammatory Bowel Diseases 95
- Intestinal Failure and Regeneration, Nutritional Disorders and Support, Surgically Modified Gut, and Transplantation 107
- Diseases of the Oropharynx and Esophagus 117
- Diseases of the Stomach and Small Intestine 129
- Diseases of the Colon and Rectum 145
- Diseases of the Pancreas 159
- Diseases of the Liver and Biliary System 169
- Bioengineering, Biotechnology, and Imaging 187

**CONCLUSION: COMMON THEMES AND STEPS FOR IMPLEMENTATION**

**APPENDICES**

- Appendix 1: Summary List of Recommended Research Goals and Common Themes 207
- Appendix 2: Rosters of the National Commission on Digestive Diseases and Its Working Groups 214
- Appendix 3: References for Statistical and Epidemiologic Data 220
- Appendix 4: Abbreviations and Acronyms 221
